

FIVE GUYS®

Table Top Assembly

Table top packaging is done to assist in ease of assembly as you can see below.

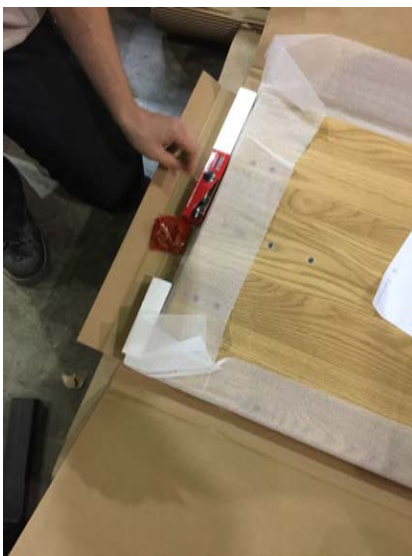

Note color coded dots and hardware indication on table base packaging

The dots correspond to the proper bases, which also have color coded dots

Place table top down with the tape seam facing up. This places the face down and the installation area up and protects the table face during assembly.

Once opened, note that hardware necessary for assemble is packaged at the end. EXCEPT for gussets. Note inserts are pre-installed.

Gussets are packed separately as shown.

Complete your assembly
