

Queue Rail (Stanchion) Information

- Stanchion rail systems are designed to match and compliment the Five Guys Moser Contract furniture package.
- Posts and rails are 2" square, powder-coated tube steel
- Top caps are 1-1/2"H x 3-1/2"W urethane-finished ash wood
- Stanchion rails are designed for core-drill or surface-mount installation (See "Queue Stanchion Construction and Installation" under Installation Instructions at fg.mosercontract.com/our-resources/)
- Queue stanchion rails vary in length (See store-specific floor/equipment plans) and are sold by the linear inch.
- Lead time (to ship) for queue rails is two weeks
- For construction and installation details, see file "Queue Stanchion Construction and Installation" under "Installation Instructions" at <https://fg.mosercontract.com/our-resources/>
- Custom (serpentine, ell-shaped) stanchions are available
- Stanchion rails ship by Old Dominion Freight Lines (Class 200 LTL), unless shipping with furniture package)
- Restocking fees may apply on last-minute cancellation of approved orders
- To order, or with questions, contact Renée Goupil (Operations Supervisor) at 207-330-3155.
